FOCUSSED

INTERACTIVE TOOLS to simulate real-world business modules like finance equations, strategy designs, etc, to visualise possible outcomes, intelligent inferences, impact analyses, etc. right then and there, as discussions and meetings on the same are in progress. It's like having the SyncOne totally in sync with the agenda.

atvî® in sync

COLLABORATIVE FEATURES that help share information between the discussion on board with all devices on the table. So mobiles, laptops, desktops, touch screens, are all in sync with the members using them who are part of the meeting at hand. It's like having the SyncOne totally in sync with not just the team, but their supporting devices.

FORTIFIED

WITH **THE POWER OF AI** FOR UNINTERRUPTED BRAINSTORMING

EVOKE THE POWER OF AI with a single-tap action and expand the current outlook before getting back into the discussion with objectivity.

GET REAL-TIME SUPPORT from AI as, when required, it generates its own suggestions and way-forwards just like another proactive team member.

EXPLORE THE POWER OF **ai**

INTELLIGENT RELEVANT RESULTS with AI itself learning over time to better understand the particular needs of the company and its philosophies.

SINGLE-TAP ACTION to use the power of "Speech to Text" to summarise the discussions and create minutes of the meeting for future reference.
